STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. Mrs. MARY E. BRASHEAR, 173 Prestman st.

Kidney Disease Cured.

Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa.
Dec. 2, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
Mrs. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

William Vandenburg, an old man living in an ark on McCloud lake, San Joaquin county, was cut and slashed by parties unknown, while lying asleep in bed. He knew nothing of the attack till he awoke and found himself covered with blood. It is thought the deed was done out of spite for the old man employing Chinamen in hauling sand.

S. E. Wilson, administrator of the estate of the late Dr. Glenn, says the estate is beyond doubt solvent. He thinks the heirs will be well provided for after all the debts of the estate are paid. The total indebtedness of the estate is about $1,000,000 of which $636,000 is represented by mortgages. Mr. Wilson values at $1,000,000 the Glenn ranch in Oregon, containing 60,000 acres. There are about 20,000 head of cattle and 1,200 head of horses. The Glenn ranch in Nevada is also valuable property.

THAT SETTLES IT.
Brought Into Competition With the World the Best Carries off the Honors.

At the great Centennial Exhibition of 1876 the leading products of all the branches of the world's industries were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you personally to know that the highest and only medal given to rubber porous plasters was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:
DR. WM. ROTH, Surgeon-General Prussian Army.
J. H. THOMPSON, A. M., M. D., Washington, D. C.
C. B. WHITE, M. D., New Orleans.
ERNEST FLEISCH, M. D., Austria.
The decision was afterward confirmed by the medical jury at the last Paris Exposition, Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and Europe, quickly threw aside the old, slow-acting plasters they had been using and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputation did this distinctly proves the intrinsic merit of the article.
It is not more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.
The right of Benson's Capcine Porous Plasters to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.
Let the purchaser, however, be on his guare against imitation. The genuine has the word CAPCINE cut in the middle.

Summons.

IN THE DISTRICT COURT OF THE Seventh Judicial District, State of Nevada, in and for the county of Washoe. The State of Nevada sends to Daniel Reynolds greeting: You are hereby required to appear in an action commenced against you as defendant by Miriam Reynolds as plaintiff in the District Court of the Seventh Judicral District, in and for the county of Washoe, State of Nevada, and answer the complaint, a copy of which accompanies this summons, herein within ten days after the service on you of this summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain against you a judgment and decree of this Court dissolving forever the bonds of matrimony heretofore and now existing between said plaintiff and defendant. Plaintiff alleges: That plaintiff and defendant intermarried at Reno, Washoe county Nevada, on the 26th day of September, A. D., 1880; that on or about the 14th day of May, A. D. 1881, you, the defendant, wilfully deserted and abandoned plaintiff, and ever since have continued, and do now so continue, to desert, abandon and live apart from plaintiff against her wish and consent, and without cause; that for more than one year last past you, defendant, have failed, and without cause, to provide for plaintiff the common necessaries of life; that there was no issue of said marriage; that there is no common property. Plaintiff prays to be restored to her maiden name; plaintiff prays judgment and to be restored to her maiden name and for her costs herein, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county.
And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the said Court for the relief demanded.
Given under my hand at Reno, Washoe county, Nevada, this 31st day of March, A. D. 1883. JNO. F. ALEXANDER,
ap2-6w Attorney for Plaintiff.

EDITORIAL NOTES.

Joseph Wasson, United States Consul at San Blas, Mexico, died at that place April 18. He left San Francisco about two months ago to assume the duties of the Consulate and to regain his health, which had been failing for some years. Deceased was a man well known in Nevada, and indeed in all the frontier country of the Pacific coast. He was particularly well known in Mono county, which he represented in the Legislature two years ago. He was mining editor of the Bodie *Free Press* for a long time, and probably knew as much about the mines of that district as any other person. Joe was a genial gentleman, an excellent companion, and a royal friend, and the Recording Angel has few black marks against him.

A Salt Lake polygamist named Connolly resisted arrest by the United States Marshal. There is nothing strange in this fact, but there is something extraordinary in the man's name. Connolly is an Irish name, and there never was but one Irish Mormon. He was a lawyer, obtained the confidence of the saints, made a clean up of a lot of money and jumped the Territory. Brigham denounced him from the pulpit and declared that no Irishman or lawyer would ever again be received into the fold of the church.

The Ohio Legislature has passed a bill allowing ministers to take a lien against a church building for unpaid salary; also allowing a sexton to do the same; also allowing a gas company to sell out a church for an unpaid gas bill; also allowing a man contracting wood or coal for a church to do the same. In fact, any person can, under the provisions of the bill, if by due process of law a judgment should be obtained, sell at Sheriff's sale any church in Ohio.

According to information published by the Immigration Association of California, Butte county has 155,000 acres of public lands subject to entry. This would make nearly 1,000 farms containing a quarter section each. A great deal of this land is mountainous and of no value for settlement,

It is reported that General J. W. Denver is in the field for President. General Denver is the individual who in a duel killed Edward Gilbert, editor of the *Alta*, in 1850, and at an earlier day was a Territorial Governor of Kansas.

The Chicago *Inter-Ocean* facetiously remarks: "The Democratic party has now busted, so to speak, into three parts—free trade, tariff for revenue only, and the straddlers. There is lots of fun ahead."

The New York *Truth* says: Of talkers the Union has a million, and of speakers 10,000, but its thorough orators can be counted on the fingers; and Mr. Conkling is one.

There is a limit even to the influence of the money of a bonanza prince. It is now said that Senator Tabor's new wife is ostracised in "society" circles at Denver.

The Verdi bridge matter will come before the Board on Monday. It is hoped they will consider it favorably.

France is showing her hand in territorial acquisition in Africa.

Tree planting deserves general and careful attention.

Conspirators Who are Anxious to Betray Each Other.

DUBLIN, May 4.

The *Freeman's Journal* says: The dynamite plot hatched in America was betrayed to a British Consulate in New York. The name of every conspirator who came to England and of the ship on which he sailed were cabled to England directly after the vessel left New York. The police watched the conspirators from the moment they landed in England. The *Journal* says that members of the governing council of conspirators could alone have given such information.

Something About the Back Money Due Pacific Railroads.

WASHINGTON, May 4.

The announcement that a circular would be issued before long directing the discontinuance of the practice of withholding money due branch lines of the Pacific railroads caused quite a flurry to-day, being a complete surprise to all but the few who knew what Brewster's opinion on the subject was. It is a long time since the subsidy roads had anything go as they wanted it, while land grant roads have been recipients of one bonanza after another until a decision is always expected in their favor. It is stated to-day by a person who should be very well informed on the subject that the suit talked about by Teller will not be pushed against the Union Pacific. The Secretary will try to settle the account by an appearance of belligerency, but will not press it to a hearing before the Supreme Court. The reason is said to be because it has been ascertained that the Court, as now constituted, is against the Thurman law, and if the question should be raised again it would stand five to four in favor of the railroads. The lastt time the question was raised it stood four to three on the side of the Government, but late appointments have changed the complexion. The result is that the Government would be advised to return to subsidy roads all that had been paid under the Thurman law and give them the use of the money till 1896 and 1897, when it is due under the subsidy act.

A Story About a Priest Which May Have Two Sides to It.

NEW YORK, May 3.

Rev. Florence McCarthy, pastor of St. Cecelia's Roman Catholic Church, Brooklyn, has begun action against Daniel Cronen to recover $20,000 for defamation of character. Mrs. Cronen made the following additional statement yesterday: "One day in February my daughter called on Father McCarthy to get some tickets she was to sell for a church entertainment. She was invited into his bedroom, and he told her to bring her chair close to the bed and sit beside him. She soon got up and left the room. He followed her down stairs, and in the sitting room threw her on a sofa." It appeared, according to the story, that the young girl got away from the priest without injury McCarty has denied the story told by Mrs. Cronen. The affair has created great excitement in the church, and there are liable to be some interesting developments.

A Woman on a Foot Excursion Across the Continent.

PAWPAW, Mich., May 3.

At 1 o'clock yesterday afternoon Mrs. Mary Janes took her start for a trip to California on foot. From the balcony of the Beckman House she made a speech to a large crowd that had assembled to see her off. She said she was able to walk there and she intended to go through. She will stop at some of the towns on the way and lecture in the evening. Her dress is very plain and the skirts short. She is armed with a hickory cane. Mrs. Jones has been quite noted in these parts as a walker, but this trip on foot to California is a great event in her life. A good collection from the crowd and a hearty cheer were given her.

Saloon-Keepers on the Defense.

DES MOINES, Iowa, May 3.

The saloons are still closed, with no present prospect of opening. The keepers have asked the Council to grant the privilege to sell whisky, in which case they would take licenses. This would be a violation of the State law, and was not considered by the Council. The saloons have entered into a compact not to take out licenses, hoping to frighten the Council by the loss of revenue; but the Mayor and Council are firm. The probabilities are that a limited number of saloons will pay the $1,000 license and open up.

Bricklayers and Tanners.

PETERSBURG, Va., May 4.

The bricklayers of this city struck for an advance to three dollars a day. The demand for such mechanics here is so great that it is found necessary to comply with the demands of the strikers.

PITTSBURG, Pa., May 4.

The tanners' strike has completely collapsed. All the best men have returned at reduced wages and the places of inferior men have been filled by new men.

Another Suffering Patriot Wants to Turn Informer.

DUBLIN, May 4.

It is confidently stated here that Peter Tynan is now in London and in communication with the police, with a view to turning informer. Kingston, Healy and Gibney, charged with conspiracy to murder Poole, were arraigned again to-day for examination. An informer named Lamie gave testimony confirming the existence of the Vigilence Murder Circle to which the prisoners belonged.

The prisoners were remanded for a week. George Smith, one of the men in custody on charge of being implicated in a conspiracy to murder Government officials, has been discharged, he having agreed to emigrate.

A Fund for the Relief of Deserted Families.

LONDON, May 4.

At a conference of members of the Irish National Party in London it was resolved to organize a fund for the relief of families and person who have fled the country or been arrested in connection with murder trials in Irelands. Six hundred families are rendered destitute by the flight or incarceration of their bread-winnsrs. An address will be issued to Irish Nationalists in America and the British colonies appealing for contributions to the proposed fund, and delegates will be sent them to set forth the need for speedy assistance.

MISCELLANEOUS.

TAILORING

ESTABLISHMENT.

MY REPUTATION AS A TAILOR is already established. "The Boss Tailor" lives in all country towns. They advertise shop-worn auction goods; they dispose of cloths not saleable in the larger cities, and are continually trying to mislead their patrons by false representations. Reno is no exception to the rule. She has a "Boss Tailor," but look at a suit made by the Virginia street "Boss" and you will immediately see the point.

MY STOCK

Is carefully selected. It is of the very best of Foreign and Domestic Manufacture and I am prepared to make suits of the latest style, cut from the finest goods, at prices never before equalled. My work speaks for itself. I guarantee a fit in every case. Call and examine my samples and prices. Leave your measure and be happy. Don't be misled by the "Boss." You will always regret it if you do. Before giving your order call at my shop and see for yourself.

IRON

RANCH FENCE.

The boss ranch, farm and vineyard fence is now in the market. It is built with iron posts and barbed wire; the post being made of wrought and cast iron. The top of the post is made of one-inch gas pipe and pierced with holes through which a plain wire is inserted, which fastens the barbed wire to the post. The post is cast with three flanges and is twenty-one inches long. The flanges render the post immovable when inserted in any soil.

These posts are placed two rods apart with an iron stay between, and there can be any number of wires and any kind of wire used.

Three men can build one mile of fence per day on good ground.

Fire cannot burn or injure it; cyclones will not move it, and floods cannot wash it away.

I sell fence loaded on cars in San Francisco at $1 per rod for three-wire fence, and $1.25 for five-wire fence complete, and to agents at reduced rates which enable a good live man to make from $100 to $500 a month on an investment of a small capital in territory, and any one wishing to purchase any county, State or Territory, can get a bargain by calling on or writing me of his desire.

To-day's Fire Alarm.

About 12 o'clock to-day an alarm was sounded which brought out the whole town. The wind was blowing a blizzard at the time and thoughts of the blaze of March 2, 1880 were brought to mind. It proved to be a manure heap piled up back of J. T. Davis' stable on the alley leading from Chesnut to Ralston street, between Third and Fourth. It was put out before any serious damage was done. A spark from a neighboring chimney caused the mischief.

An Old-Timer Gone.

Ansel S. Olin, an old Comstocker, died in San Francisco last Sunday. He was for many years proprietor of the livery stable on B street, Virginia, now owned by Samuels & Peterson. In 1866 Mr. Olin sold his business to Derby & Garhart and moved to San Francisco, where he has since lived. He was noted for largeness of heart and jollity of soul, and many friends will regret his demise.

IS ALUM POISONOUS?

A Chance for a Choice Between the Various Baking Powders.

Dr. Hall's *Journal of Health*, in a recent issue, says:

"This question has caused a good deal of discussion. Alum is used by many bakers to whiten their bread, enabling them to use an inferior flour. It is more extensively employed as a cheap substitute for cream of tartar in the manufacture of baking powders. It has not been considered immediately dangerous, although if continued it induces dyspepsia and obstinate constipation. But the fact that many cases of poisoning have occurred from baking powders which contained alum puts the question in a more serious aspect, and prudent people will exercise caution in the selection of baking powders.

Under what conditions, then, does this substance—formerly used only for mechanical or medicinal purposes—become poisonous? They are certainly obscure, and at present we can only surmise what they may be. We suspect that the cause exists in the individual poisoned; some peculiarity of the constitution producing a morbid change in the secretions of the stomach, with which the alum combines and forms an active poison; or the secretions may be healthy, but in unusual proportions, and that these less or greater proportions, in combination with the alum, constitute a poison.

For example, two parts of mercury and two parts of chlorine form calomel, which is not poisonous; but change the proportions to one part of mercury and two parts of chlorine and we get corrosive sublimate, which is a deadly poison.

Then, again, we know nothing of the causes of constitutional peculiarities. Why is it that one person can eat all kinds of green fruits and vegetable with impunity, while the same course might cost another individual his life? One person can handle poison ivy and sumac without being in the least affected; another is poisoned if he approaches to within 10 feet of them. Out of a family residing in a malarial district some of the members will suffer half the year with fever and ague, while the others will enjoy excellent health during the entire year. Foods that are wholesome to some persons are actually poisonous to others. This is especially true of some kinds of fish. There is no safety in taking alum into the stomach, as it is shown to be always injurious and often dangerous. Baking powders properly compounded, and containing pure cream of tartar instead of alum, are more convenient than yeast; and bread and pastry made with them are just as wholesome and far more palatable. We are in entire sympathy with the manufacturers of the Royal Baking Powder—who commenced and are vigorously conducting the war against the use of alum in baking powders.

"Before committing ourselves, however, we made tests of a sufficient number of baking powders to satisfy ourselves that the substitution of alum for cream of tartar in their composition has not been overestimated, while a careful examination of the Royal Baking Powder confirms our belief that Dr. Mott, the Government chemist, when he singled out and commended this powder for its wholesomeness, did it wholly in the interests of the public.

"We do not hesitate to say that the Royal Baking Powder people deserve the gratitude of the community whom they are endeavoring to protect.

"Will not some prominent manufacturer of pure candies follow their example, and expose the secrets of a business that is doing untold mischief to little children?"

SUDDEN DEATH.

A Pioneer of Plumas County Dead of Heart Disease.

Early on the morning of last Saturday, says the Greenville *Bulletin*, William P. Wilcox, accompanied by his son Ross, left North Arm with a band of cattle that they intended to take to pasture up in Light's Canyon. Wilcox was in his usual good health on leaving home, but when about four miles up the canyon, he got off his horse and said to his boy, "Drive them on; I am out of breath and must rest a little." Ross went on with the cattle, but kept looking back. After he had gone about 50 yards, he saw his father lying on the ground and writhing or struggling. The boy went back to him and asked, "What is the matter?" but his father could not answer him, except by a longing, sorrowful look. The struggle lasted but a few moments, during which the boy helplessly watched his father, who at last sunk into silence and repose. Evidently death had released him from all pain. Wilcox had died of heart disease at about the moment his son saw him cease struggling.

Justice's Court.

This morning Judge Young sent James Duxberry to jail for 60 days for being a chronic drunk. He was arrested last Tuesday and was so thoroughly saturated that he could not sober up enough to plead guilty until to-day. Richard Tate, a civilized Indian, who was carefully educated by a reservation missionary, was sent up for 15 days for being drunk and disturbing the peace as white Christians do.

ALONG THE RIVER.

Little Items Gathered By a Gazette Reporter.

James Ware, Superintendent of the Pacific Lumber and Wood Company, was married in San Francisco April 28th to Miss Bayley. He is again on hand at the mill attending to business.

The Boca mill starts up on Monday. Mr. Whitbeck says they want to cut 8,000,000 feet this season.

The homely old wood shed at Boca has been torn down.

The railroad carpenters are giving the bridge at Boca a thorough overhauling. The one at Prosser creek is finished.

The Pacific Lumber and Wood Company are running their mill and cutting 35,000 feet a day, and have plenty of logs ahead.

The railroad boys say the roundhouse at Truckee is the best of its kind in America.

P. B. Comstock, the Boca landlord, wrote Dr. Dawson the other day that he would find a basket at the depot for him. The doctor called and found a black oak basket, with heavy iron hoops, containing five gallons of Boca beer in bulk.

Lonkey & Smith have taken the engine from the burnt mill at Verdi and put it on the shaft with the old one at their factory at Camp 16, making a neat and strong double engine, and giving them lots of power. They have two planers there, four cut-off and one re-saw. The machinery will be tried on Saturday.

The Banner mill will start up on Monday. The Prosser Creek mill will start up June first. The owners, Lonkey & Smith, expect to cut 10,000,000 this season.

D. D. Whitbeck is better. So is Jim Ware.

The first car-load of doors from the re-built factory at Verdi went forward last Saturday. They were good ones and were sold in Salt Lake City.

Miss Mary M. Porter of Truckee will be married on Sunday to James Crawford of Carson. Miss Porter is a sister of A. O. Porter of the Reno GAZETTE.

Richardson Bros. are cutting up a lot of square timber into lumber. They had the timber cut last year and it makes nice, dry lumber.

P. B. Comstock and wife like Boca very much. They say the climate is nice, the wind never strong and the air pure.

The Truckee Lumber Company are running one sawmill at Truckee. The other is being put in order. They have already cut 500,000 feet with their Dog valley mill. They look for a good year.

The new horizontal shingle saw, several of which are being used for cutting blocks into box stuff, is doing better than was promised. It cuts up the hardest kind of fir blocks handily.

Boca promises to be the best town between Reno and Dutch Flat some day. The little Truckee has hundreds of millions of timber that must come out that way. It needs a railroad to bring down the logs and more mills to saw them up. A reliable gentleman says that in a year Boca will have the biggest mill on the river—one that will cut 100,000 feet a day. With its large ice business, the immense brewery and the crowds that will flock there if it becomes headquarters, it will be a booming camp. It has a store, saloon and good hotel now.

PLUMAS ITEMS.

News Items Culled From Our Greenville Exchange.

Yesterday morning the ground was covered with snow, the storm having continued from the preceding day.

At John W. Thompson's place in American valley the oak trees are completely covered on every limb with a kind of scale bug. It is too early yet to be able to know how destructive the pests may be or whether they will attack other kinds of trees.

On Monday morning while two men were being hoisted up the shaft of the Argentine mine, near Quincy, and when they were about two-thirds of the distance up, something got wrong about the machinery, and the engine was stopped. The engineer tried to hold the cage with the brake, but for some reason failed, and it fell to the bottom. One of the men is reported to have both legs and one arm broken; the other one is also severely hurt.

Ellis Wing had a very narrow escape from a terrible death last week. While emptying a bucket of dirt at the Crescent mine an iron ring in the bottom of the tub of which he had hold gave way, and he fell backward into the shaft; from the platform on which he had been at work he fell 12 feet, onto a beam, on which he was hanging, when the engineer, W. France, who saw him fall, sprang forward and caught him. An instant longer, and he would have rolled from the beam and been dashed to pieces at the bottom of the shaft. Three ribs were broken, two being torn from the spinal column; there were also other bruises and contusions, but the injured man is now doing well under the care of Dr. Carter.

An Interesting Mass of Flesh.

There is a solid young lady near Quincy who weighs over 200 pounds. A few days ago a man who admires her said, "She don't look so large till one begins to walk around her."

TRAMP ON TOAST.

A One-Legged Nomad Roasted to Death in the Wadsworth Jail.

A man with a wooden leg has been about Reno for the past month or so, and a portion of that time has been an inmate of the county jail. Yesterday morning Deputy Sheriff Pine turned him out, to seek his living, which he said he could earn. He went to Perkins' store and purchased a lot of lead-pencils to peddle, and during the afternoon got intoxicated, and delivered long disquisitions on obstruse subjects on Commercial Row. He left for Wadsworth on No. 7 and got on a jamboree at the round-house. About 11 o'clock Constable Jake Lewis arrested him and put him in jail, searching him thoroughly. Sometime about 2 o'clock flames were seen issuing from the roof of the calaboose, and before means of extinguishing the fire could be employed the calaboose was burned, together with its occupant. The only thing that can be learned is that his name—as he told it—is William Nash. Where he came from no one knows, and where he has gone to is a still more difficult question to answer.

SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albuman will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.
